

# Fun with Math

Complete by finding the value of each symbol

$$\nabla + \bullet = 17$$

$$\bullet + \bullet = 12$$

$$\nabla + 5 = ?$$

$$\nabla = \underline{\quad}$$

$$\bullet = \underline{\quad}$$

$$\hexagon + \hexagon = 2$$

$$\star + \star = 16$$

$$\star + \hexagon = ?$$

$$\hexagon = \underline{\quad}$$

$$\star = \underline{\quad}$$

# Answer Key

Complete by finding the value of each symbol

$$\triangle + \bullet = 17$$

$$\bullet + \bullet = 12$$

$$\triangle + 5 = 16$$

$$\triangle = \underline{11}$$

$$\bullet = \underline{6}$$

$$\hexagon + \hexagon = 2$$

$$\star + \star = 16$$

$$\star + \hexagon = 9$$

$$\hexagon = \underline{1}$$

$$\star = \underline{8}$$
