

Fun with Math

Complete by finding the value of each symbol

$$\text{Barn} + \text{Barn} = 6$$

$$\text{Barn} + \text{Watering Can} = 4$$

$$\text{Watering Can} + \text{Watering Can} = ?$$

$$\text{Barn} = \underline{\quad}$$

$$\text{Watering Can} = \underline{\quad}$$

$$\text{Chair} + \text{Chair} = 12$$

$$\text{Cup} + \text{Cup} = 14$$

$$\text{Chair} + \text{Cup} = ?$$

$$\text{Cup} = \underline{\quad}$$

$$\text{Chair} = \underline{\quad}$$

Answer Key

Complete by finding the value of each symbol

$$\begin{array}{l} \text{Barn} \text{ (3)} + \text{Barn} \text{ (3)} = 6 \\ \text{Barn} \text{ (3)} + \text{Watering Can} \text{ (1)} = 4 \\ \text{Watering Can} \text{ (1)} + \text{Watering Can} \text{ (1)} = 2 \end{array}$$

$$\begin{array}{l} \text{Barn} = 3 \\ \text{Watering Can} = 1 \end{array}$$

$$\begin{array}{l} \text{Armchair} \text{ (6)} + \text{Armchair} \text{ (6)} = 12 \\ \text{Teacup} \text{ (7)} + \text{Teacup} \text{ (7)} = 14 \\ \text{Armchair} \text{ (6)} + \text{Teacup} \text{ (7)} = 13 \end{array}$$

$$\begin{array}{l} \text{Teacup} = 7 \\ \text{Armchair} = 6 \end{array}$$
