

# Fun With Math

Complete by finding the value of each symbol

$$\text{Duck} + \text{Owl} + \text{Butterfly} = \text{Giraffe}$$

$$4 - \text{Butterfly} = 3$$

$$\text{Giraffe} + \text{Giraffe} + \text{Giraffe} = ?$$

$$\text{Butterfly} + \text{Butterfly} = \text{Duck}$$

$$4 + \text{Duck} = \text{Snail}$$

$$\text{Snail} - \text{Butterfly} = \text{Owl}$$

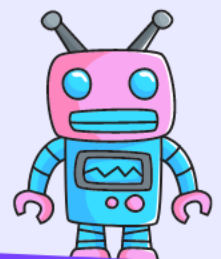

$$\text{Owl} = \underline{\quad}$$

$$\text{Butterfly} = \underline{\quad}$$

$$\text{Snail} = \underline{\quad}$$

$$\text{Giraffe} = \underline{\quad}$$

$$\text{Duck} = \underline{\quad}$$

# Answer Key

Complete by finding the value of each symbol

$$\text{Duck} \text{ (2)} + \text{Owl} \text{ (5)} + \text{Butterfly} \text{ (1)} = \text{Giraffe} \text{ (8)}$$

$$4 - \text{Butterfly} \text{ (1)} = 3$$

$$\text{Giraffe} \text{ (8)} + \text{Giraffe} \text{ (8)} + \text{Giraffe} \text{ (8)} = 24$$

$$\text{Butterfly} \text{ (1)} + \text{Butterfly} \text{ (1)} = \text{Duck} \text{ (2)}$$

$$4 + \text{Duck} \text{ (2)} = \text{Snail} \text{ (6)}$$

$$\text{Snail} \text{ (6)} - \text{Butterfly} \text{ (1)} = \text{Owl} \text{ (5)}$$

$$\text{Owl} = 5$$

$$\text{Butterfly} = 1$$

$$\text{Snail} = 6$$

$$\text{Giraffe} = 8$$

$$\text{Duck} = 2$$
