

Fun With Math

Complete by finding the value of each symbol

$$\text{Moon} + \text{Sun} = 5$$

$$\text{Rocket} + \text{Rocket} + \text{Rocket} = ?$$

$$\text{Airplane} - \text{Rocket} = \text{Moon}$$

$$6 + \text{Moon} = 9$$

$$\text{Sun} + \text{Sun} + \text{Airplane} = 11$$

$\text{Sun} = \underline{\hspace{2cm}}$

$\text{Moon} = \underline{\hspace{2cm}}$

$\text{Rocket} = \underline{\hspace{2cm}}$

$\text{Airplane} = \underline{\hspace{2cm}}$

Answer Key

Complete by finding the value of each symbol

$$\text{Moon}^3 + \text{Sun}^2 = 5$$

$$\text{Rocket}^4 + \text{Rocket}^4 + \text{Rocket}^4 = 12$$

$$\text{Airplane}^7 - \text{Rocket}^4 = \text{Moon}^3$$

$$6 + \text{Moon}^3 = 9$$

$$\text{Sun}^2 + \text{Sun}^2 + \text{Airplane}^7 = 11$$

$\text{Sun} = 2$

$\text{Moon} = 3$

$\text{Rocket} = 4$

$\text{Airplane} = 7$
