# Answer Key

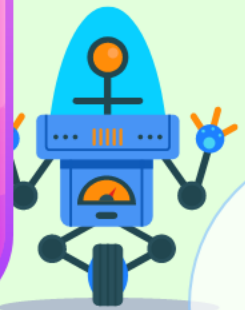

Complete by finding the value of each symbol

$$\begin{array}{rcl}
 \text{Earth} + \text{Earth} & = & \text{Flower} \\
 70 \div \text{Earth} & = & 10 \\
 \text{Factory} - 63 & = & 7 \\
 \text{Flower} \times \text{Earth} & = & 98
 \end{array}$$

$$\text{Earth} = 7$$

$$\text{Factory} = 70$$

$$\text{Flower} = 14$$

$$\begin{array}{rcl}
 \text{Briefcase} \times \text{Envelope} & = & 78 \\
 \text{Briefcase} + 13 & = & \text{Envelope} \\
 \text{Briefcase} \div 137 & = & \text{Briefcase} \\
 \text{Envelope} - \text{Briefcase} & = & 7
 \end{array}$$

$$\text{Briefcase} = 0$$

$$\text{Envelope} = 13$$

$$\text{Briefcase} = 6$$
